

Apartment Homes Offering More Light, Space & Access to Nature, Win Award for Unique Design

In Ellicott City, Maryland, Orchard Park and in Elkridge, Maryland, Penniman Park are two of the Park *Way* Apartment Communities developed by Security Development Group, (SDC).

SDC recently received the prestigious, 2009 Annual Excellence in Community Development Award from the Home Builder Association of Maryland. The award recognized the developer's sensitivity to the environment, sustainable design, and their unique planning concept. These oversized apartments offer much more.

Rob Moxley, Principal of SDC explains, "We select building sites that are private and at the same time provide easy access to major area roadways, area services and beautiful parks. We retain the existing trees and the natural environment as part of our master landscaping plan."

Orchard Park Apartments in Ellicott City, (above), is located on a tree lined cul-de-sac and is surrounded by mature trees & parkland.

Above, award winning Penniman Park opened in Spring of 2009. "Mark Moxley, also a Principal at SDC says, "Another major focus is on the quality of the apartment home interior. Our apartments are bigger & include features like lofts, fireplaces, front loading washers & dryers & more closets, huge balconies and large windows to bring the natural beauty of the outside in. Our community amenities range from cardio centers to a tanning bed to extra storage space and a private garage. We invite you to come and see for yourself."
