

MONTGOMERY COUNTY'S CHILD WELFARE SERVICES *NEEDS* FOSTER PARENTS

Do you have room in your heart and your home?

Many of our older foster youth and our most vulnerable children are often placed far away from their friends, schools, neighborhoods, and families simply because of their age and our inability to find foster placements close to home.

Foster homes are needed that can take:

- children 13 years of age and older
- teen mothers and their babies
- groups of two or more brothers and sisters who want to be in foster care together
- our most vulnerable children and youth, who need foster parents that can work with special needs

As a foster parent, you will receive:

- Training and support from Montgomery County's Child Welfare Services.
- Financial assistance to cover your foster children's expenses.
