## What is Scramble Golf?

In a team scramble event, each team player tees off on each hole. Of all the team members, the best of the tee shots is selected and all players play their second shots from that spot. Then, the best of the second shots is determined. All play their third shots from that spot, and so on until the ball is holed. With this format, whether a beginner or novice, or just a good putter, you can be a productive participant in this fun focused, golf event.
