The LULAC Federal Training Institute (FTI), The National Council of Hispanic Employment Program Managers (NCHEPM), Leadership Consultants and several Federal agencies have come together to coordinate and provide training through the **2020 Virtual LULAC Federal Training Institute Partnership “A Month of Development”** for Federal employees and the community during these challenging times. However, more now than ever, we need to recruit, retain, motivate, and develop a diverse federal workforce to lead, aspire leadership positions and become the leaders of tomorrow.
